DETAILED ACTION

The Amendment filed 5/21/2007 has been received, entered into the record, and carefully considered.

Remarks drawn to rejections of Office Action mailed 12/19/2006 include:

Double Patenting rejection: which has been overcome by applicant's filing of a terminal disclaimer.

An action on the merits of claims 17-18 and 21-41 is contained herein below. The text of those sections of Title 35, US Code which are not included in this action can be found in a prior Office action.

Terminal Disclaimer

The terminal disclaimer filed on 5/21/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,245,749 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Application/Control Number: 09/879,854

Art Unit: 1623

Claims 17-18 and 21-41 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

In the amendment filed on February 26, 2002, applicants amended claim 17 to include the phrase "a method of treating a patient infected with hepatitis B virus and HIV comprising" Applicants do not have support for the claims as amended. The original disclosure does not disclose methods of treating both HBV and HIV. The original disclosure is drawn to methods of treating HBV, and it appears applicants are relying on the specification, page 6 to support the methods of treating both HIV and HBV:

"In light of the fact that HBV is often found in patients who are also anti-HIV antibody or HIV-antigen positive or who have been exposed to HIV, the active anti-HBV compounds disclosed herein or their derivatives or prodrugs can be administered in the appropriate circumstance in combination or alternation with anti-HIV medications"

The fact that HBV patients also may be anti-HIV antibody or HIV-antigen positive, is not seen to clearly support the claimed methods of treating both HIV and HBV. The changing of the scope of a claim, either by broadening or narrowing, can be construed as new matter as either is capable of changing the scope of what is claimed, and the narrower or broader group must be

supported in its entirety by the specification as originally filed. As set forth supra, the original disclosure does not have support for the method as presently claimed.

It is noted that a rejection of the claims is reviewable by the Board of Patent Appeals and Interferences.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C. McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shaojia A. Jiang can be reached on 571-272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
